

Proportions sparsity filtered at 0.1% abundance Principal Coordinates Analysis
effect size of separation of groups 2 & 1 : 0.284

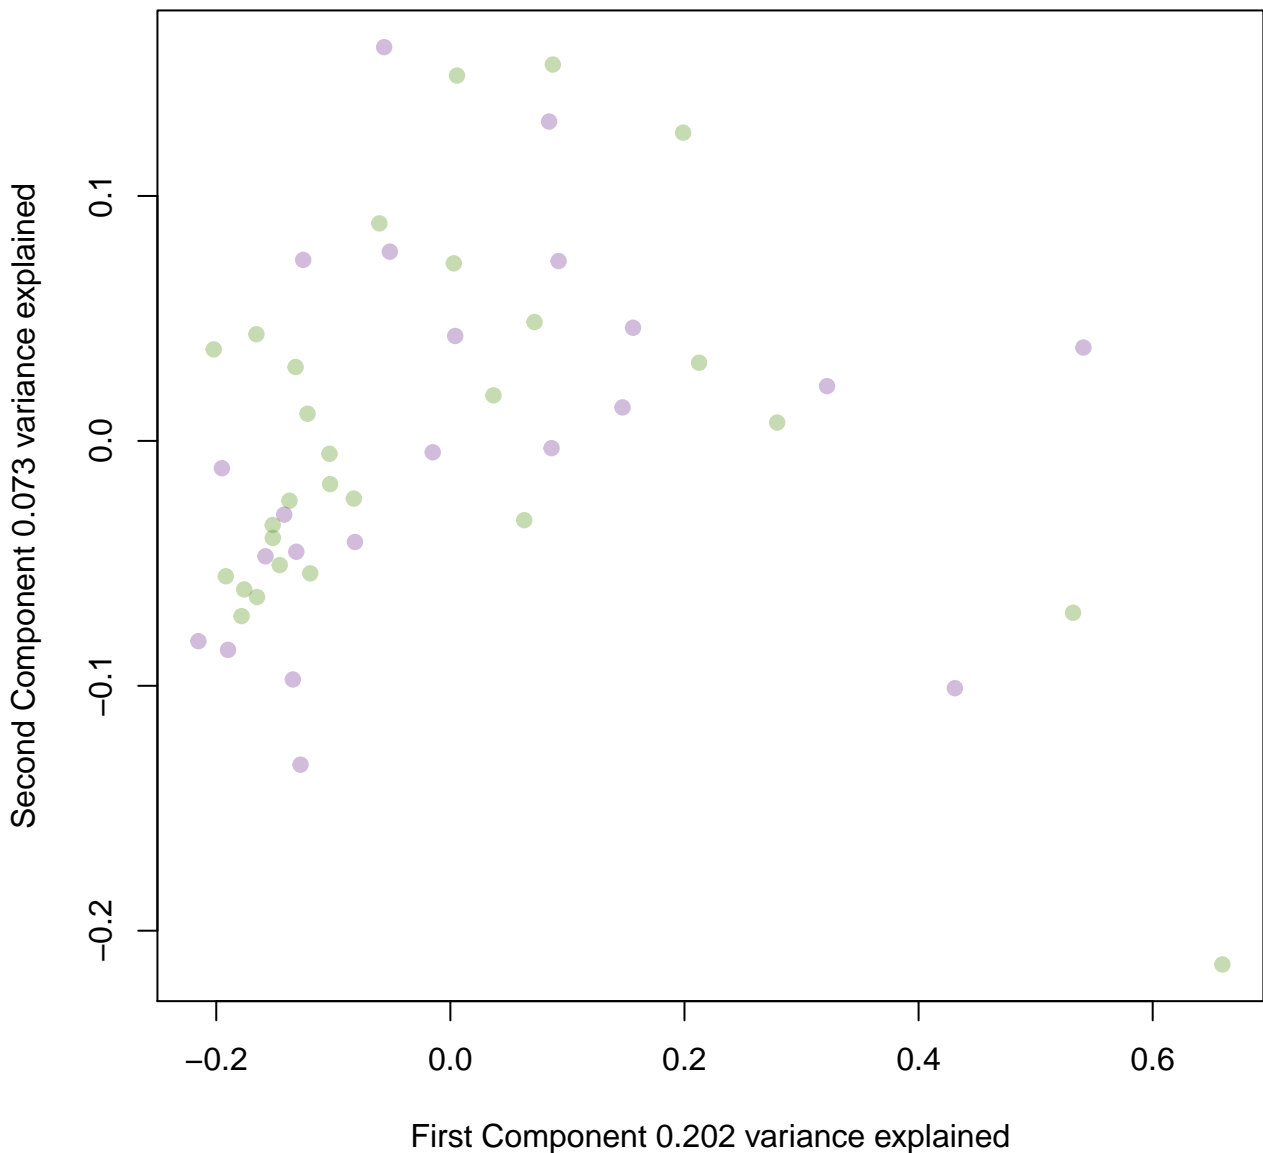

Proportions sparsity filtered at 0.1% abundance Principal Coordinates Analysis
effect size of separation of groups 2 & 3 : 1.363

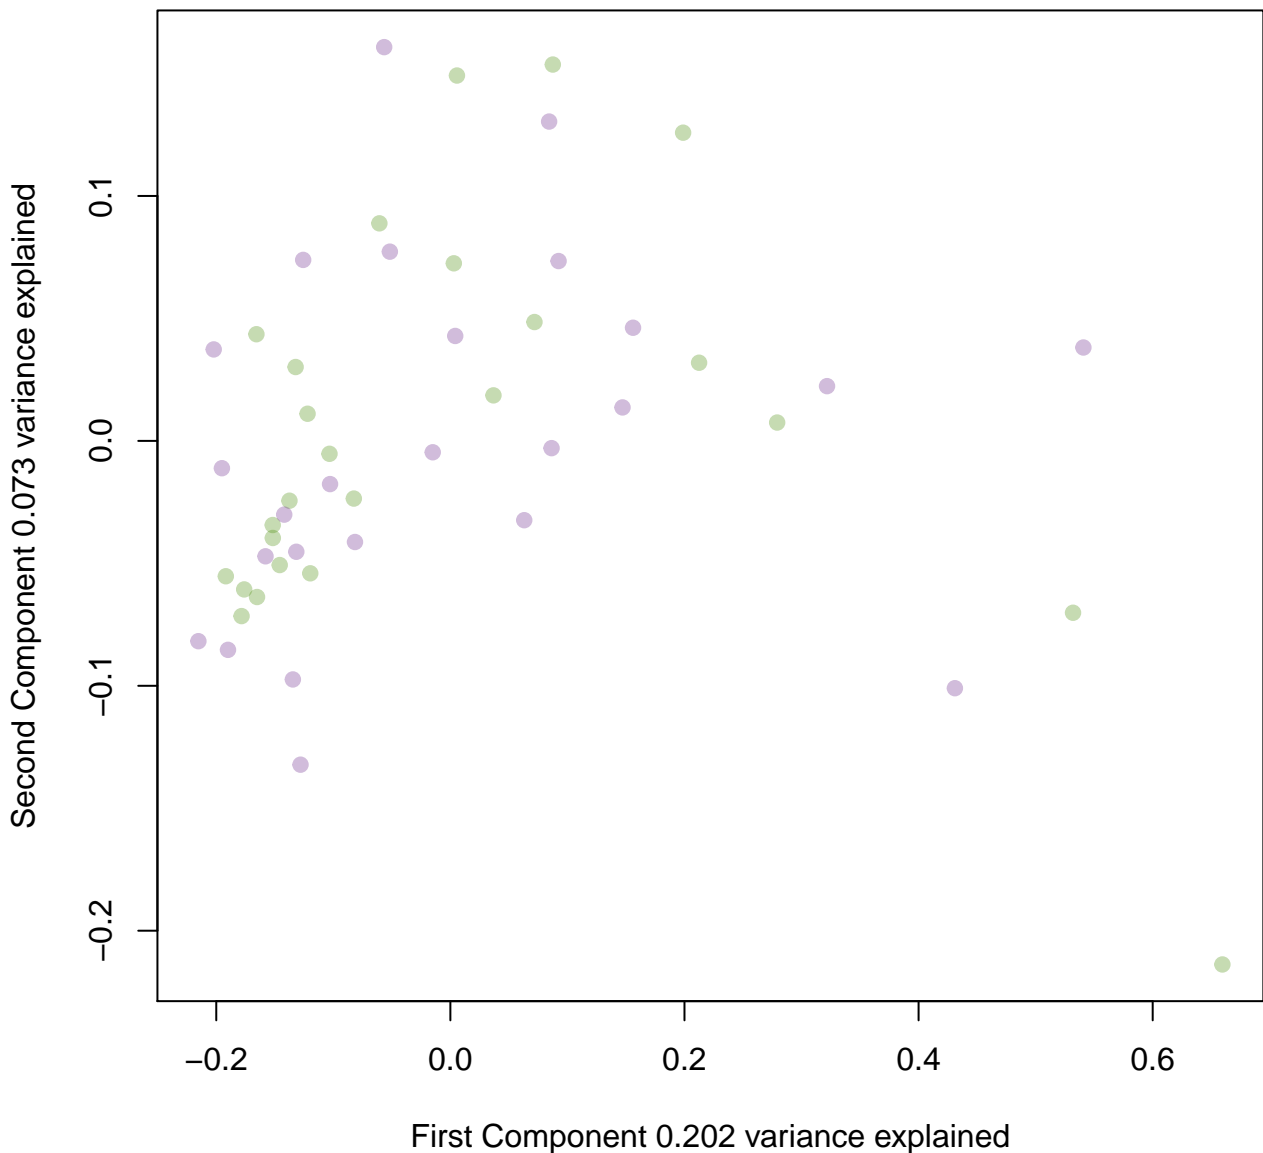

Proportions sparsity filtered at 0.1% abundance Principal Coordinates Analysis
effect size of separation of groups 1 & 3 : 0.285

Proportions sparsity filtered at 0.1% abundance Principal Coordinates Analysis
effect size of separation of groups male & female : 0.093

Proportions sparsity filtered at 0.1% abundance Principal Coordinates Analysis
effect size of separation of groups low & high : 0.001

Proportions sparsity filtered at 0.1% abundance Principal Coordinates Analysis
effect size of separation of groups 2 & 1 : 0.001
