

Proportions sparsity filtered at 0.001% abundance Principal Coordinates Analysis
effect size of separation of groups 2 & 1 : 0.358

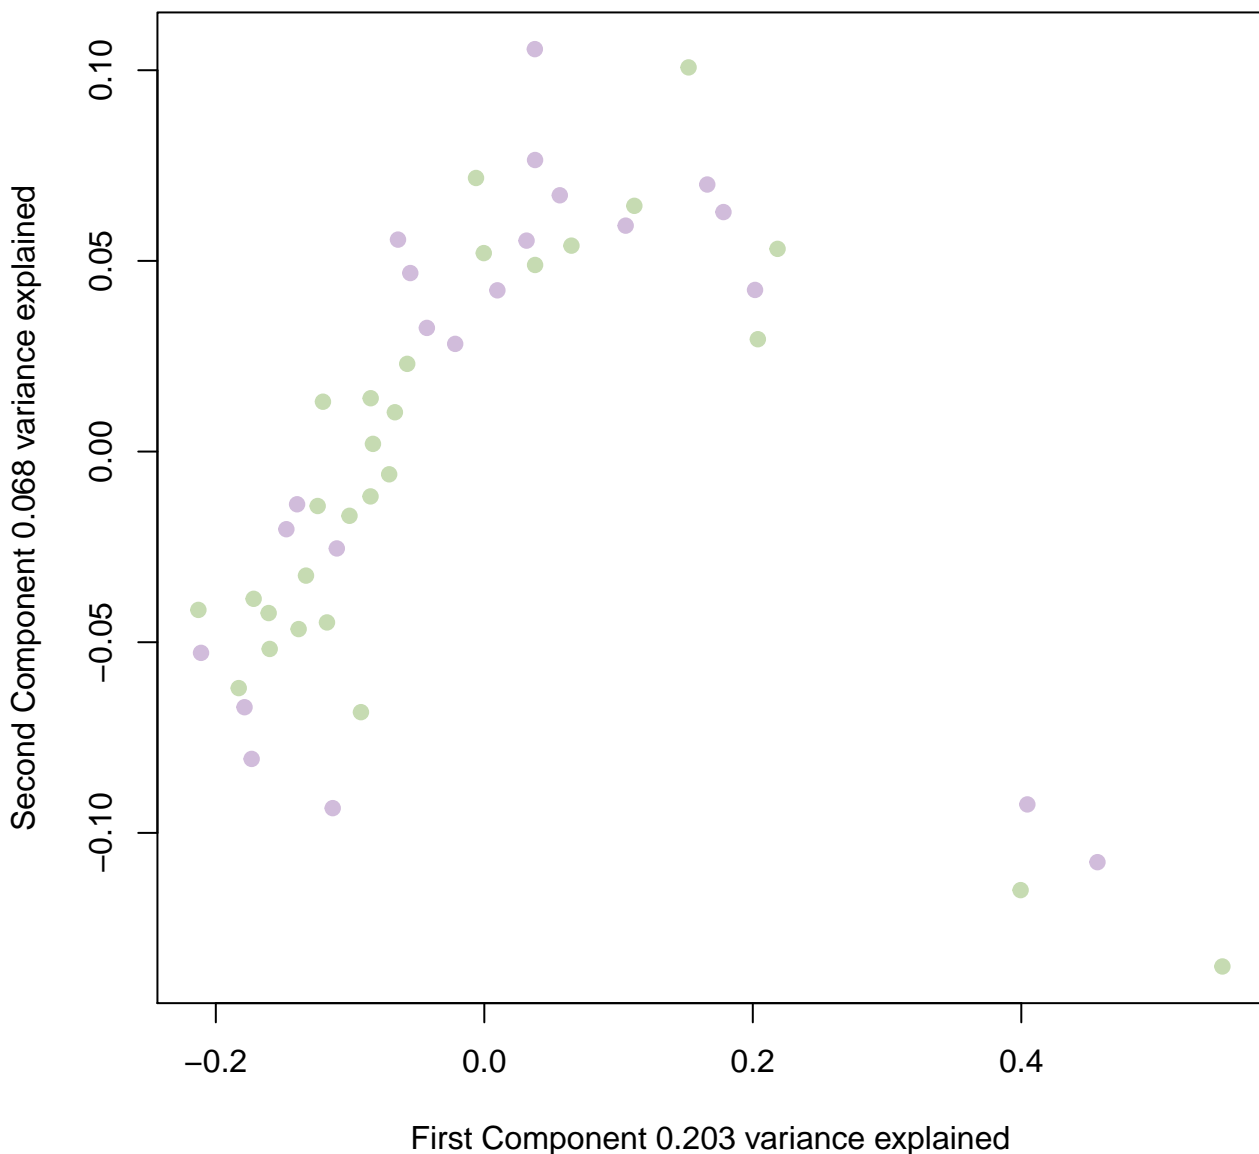

Proportions sparsity filtered at 0.001% abundance Principal Coordinates Analysis
effect size of separation of groups 2 & 3 : 1.19

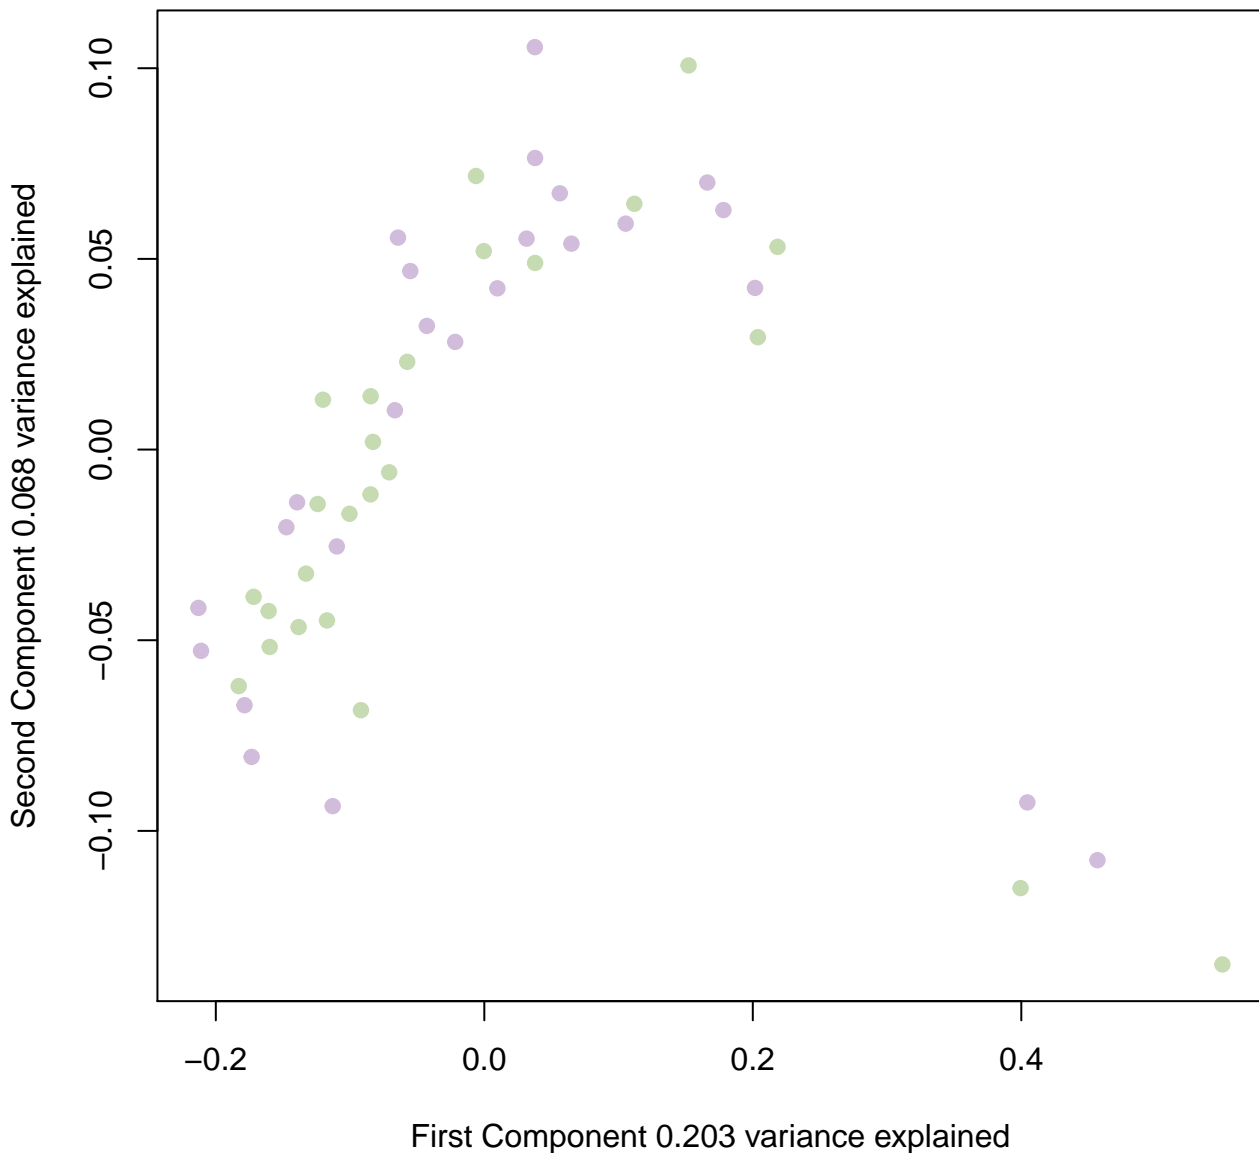

Proportions sparsity filtered at 0.001% abundance Principal Coordinates Analysis
effect size of separation of groups 1 & 3 : 0.869

Proportions sparsity filtered at 0.001% abundance Principal Coordinates Analysis
effect size of separation of groups male & female : 0.195

Proportions sparsity filtered at 0.001% abundance Principal Coordinates Analysis
effect size of separation of groups low & high : 0.096

Proportions sparsity filtered at 0.001% abundance Principal Coordinates Analysis
effect size of separation of groups 2 & 1 : 0.096
